EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael McGaw on April 8, 2009.

The application has been amended as follows:

In the claims:

5. (currently amended) A method of processing quinoa fruit ~~to isolate protein~~ comprising the steps of:

comminuting or milling the quinoa fruit;

separating the embryo-rich fraction from the perisperm-rich fraction of the comminuted quinoa fruit;

extracting the oil from the embryo-rich fraction of the comminuted quinoa fruit[[
leaving]] to produce defatted quinoa;

extracting the protein from the defatted quinoa using an alkaline solution to solubilize the protein in the defatted quinoa;

separating solubilized protein in the alkaline solution from the insoluble fiber of the defatted quinoa; and

drying the separated protein, whereby a quinoa protein concentrate containing at least about 50 wt% protein is obtained.

Art Unit: 1656

26. (currently amended) A method of processing quinoa fruit ~~to isolate protein~~ comprising the steps of:

- milling the quinoa fruit;
- extracting the oil from the flaked quinoa leaving defatted quinoa;
- collecting the extracted quinoa oil, whereby a quinoa oil product is obtained;
- comminuting the defatted quinoa;
- extracting the protein from the defatted quinoa using an alkaline solution to solubilize the protein in the defatted quinoa;
- separating solubilized protein from the insoluble fiber of the defatted quinoa; and
- drying the separated protein, whereby a quinoa protein concentrate containing at least about 50 wt% protein is obtained.

The following is an examiner's statement of reasons for allowance: claims 1-8, 20-27, 29-30 are drawn to a quinoa fruit protein concentrate having a protein content of at least about 50 wt% on a dry weight basis, as well as methods of processing quinoa fruit to isolate said protein, quinoa starch, fiber, and oil products. A search of the prior art reveals that the instant invention is free of the prior art and that the prior art does not suggest the invention as claimed. Therefore, the instant invention is novel and therefore, non-obvious.

Claims 1-8, 20-27, 29-30 are allowed.

Art Unit: 1656

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marsha M. Tsay whose telephone number is (571)272-2938. The examiner can normally be reached on M-F, 9:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jon Weber can be reached on 571-272-0925. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
